# Web Scraping Sandbox

Books

A [fictional bookstore](#) that desperately wants to be scraped. It's a safe place for beginners learning web scraping and for developers validating their scraping technologies as well. Available at: [books.toscrape.com](#)

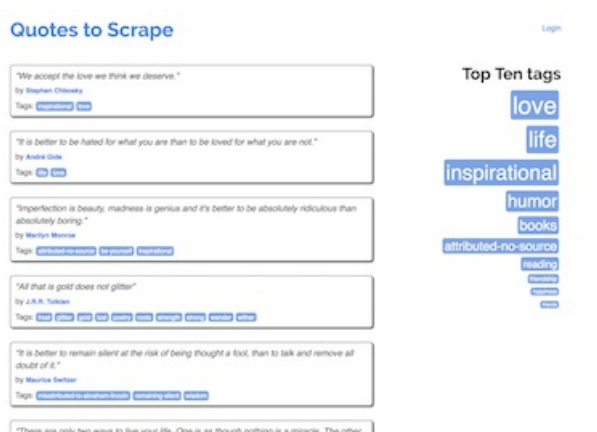

Details

Amount of items	1000
Pagination	✔
Items per page	max 20
Requires JavaScript	✘

Quotes

[A website](#) that lists quotes from famous people. It has many endpoints showing the quotes in many different ways, each of them including new scraping challenges for you, as described below.

Endpoints

[Default](#)	Microdata and pagination
[Scroll](#)	infinite scrolling pagination
[JavaScript](#)	JavaScript generated content
[Delayed](#)	Same as JavaScript but with a delay (?delay=10000)
[Tableful](#)	a table based messed-up layout
[Login](#)	login with CSRF token (any user/passwd works)
[ViewState](#)	an AJAX based filter form with ViewStates
[Random](#)	a single random quote
